

RUTGERS—NEW BRUNSWICK HONORS COLLEGE AND CENTER FOR COGNITIVE SCIENCE PRESENT

DR. ANGELICA LIM

Renowned Artificial Intelligence Researcher

TUES, APRIL 17 EVENTS

1:00-2:30pm — Talk: Building Robots with Emotional Intelligence
Pharmacy Building, Rm 111 (Busch Campus)—Learn more at tinyurl.com/DrLimTalk

5:30-7:30pm —Panel Discussion: The Social/Ethical Implications of AI
Dr. Lim with Dr. Brian McLaughlin, Center for Cognitive Science, and Dr. Alex Borgida, Department of Computer Science, both of the Rutgers School of Arts and Sciences
Voorhees Hall, Rm 105 (College Avenue)—Register at tinyurl.com/DrLimPanel

7:30-9:00pm —Reception for Dr. Lim
Honors College Fireside Lounge—RSVP at tinyurl.com/DrLimReception

Dr. Lim is an Assistant Professor of Professional Practice in Computing Science at Simon Fraser University (SFU) in Canada. As director of the SFU Rosie Lab, her current research focuses on building robots with social intelligence and empathy, particularly using affective and developmental robotics paradigms. She has been featured on the BBC, given talks at SXSW and TEDx, hosted a TV documentary on robotics, and was recently featured in Forbes 20 Leading Women in AI.

These events are made possible in part by the National Center for Women & Information Technology.

Hosted by the Rutgers—New Brunswick Honors College
and the Center for Cognitive Science.

Revolutionary for 250 Years
