

*RuCCS Marquee Course Series: Making a Mind with a Brain*

## What is a human mind? What is an animal mind? What properties do they share (if any)?

Wednesday, January 19, 2022

2PM - 5PM EST

### What is a Marquee Course?

RuCCS Marquee courses are special graduate courses in which multiple faculty teach together in the same classroom at the same time to explore a shared area of expertise from diverse perspectives. These courses are intended to attract students from across the University and to be a highlight of the RuCCS experience for students and faculty alike.

### Instructors:

- Prof. [Kasia Bieszczad](mailto:kasia.bie@rutgers.edu): [kasia.bie@rutgers.edu](mailto:kasia.bie@rutgers.edu)
- Prof. [Jenny Wang](mailto:jinjing.jenny.wang@rutgers.edu): [jinjing.jenny.wang@rutgers.edu](mailto:jinjing.jenny.wang@rutgers.edu)

- [The Baby Lab](#). *The New Yorker*. 2006.
- Striedter G. F. (2013). [Bird brains and tool use: beyond instrumental conditioning](#). *Brain, Behavior and Evolution*, 82(1), 55-67.
- Striedter G. F. (2002). [Brain homology and function: An uneasy alliance](#). *Brain Research Bulletin*, 57(3-4), 239-242.

All are welcome to  
join RuCCS Marquee  
Course Series
